Students' Feedback for Fractal 1

Saptarshi Pyne

Assistant Professor

Department of Computer Science and Engineering
Indian Institute of Technology Jodhpur, Rajasthan, India 342030

CSL4030 Data Engineering

September 15th, 2023

Fractal 1 feedback: Minor-1 question paper

- Lengthy
 - Please divide the total time by total marks. Here, 1.5 minutes for each mark.
- Low correlation with class discussions, high correlation with class discussions
 - Which one is true?
- Lack of information in the question statements
 - Please follow the given references for standard notations.

Fractal 1 feedback: Minor-1 question paper (contd.)

- Lack of short objective type questions
 - $1/8^{\text{th}}$ of the marks targeted for D and E grades.
- Long questions can result in subjective marking by different TAs
 - The instructor will check all the papers.

Fractal 1 feedback: Ways to improve lab sessions

- Harder lab assignments
- Pre-lab materials
- Less time for tutorial and more time for practical

The instructor has requested the TAs to discuss the possibilities with you.

Fractal 1 feedback: Ways to improve theory lectures

- Problem sets for practice
- More slides
- Faster pace
- “Please provide proper theory in lecture itself not the topics”

Fractal 1 feedback: Final thoughts

Thank you for your constructive criticisms and valuable suggestions. They will be incorporated into the Fractal 2 discussions.

Also, thank you for all the complements (not shown here).

Thank you
